many animals build shelters but only humans build homes no other species creates such
a variety of dwellings drawing examples from across the archaeological record and
around the world archaeologist jerry d moore recounts the cultural development of the
uniquely human imperative to maintain domestic dwellings he shows how our houses
allow us to physically adapt to the environment and conceptually order the cosmos and
explains how we fabricate dwellings and in the process construct our lives the
prehistory of home points out how houses function as symbols of equality or proclaim
