in the ten years since this gower handbook was first published programme management has been transformed to become the vehicle of choice for realising the objectives of large scale complicated business government and social investment the second edition of this gower handbook is a completely new text designed as a definitive guide to the current state of programme management to that end the text offers foundation theory and knowledge around

key issues such as managing programme contracts people and know how complexity and uncertainty benefits and success measures as well as every stage of the programme life cycle the main central section of the book provides theory tools advice and examples of practical application from an industry context and covers sectors including construction energy aerospace and defence it automotive and the public sector the handbook also includes a section with chapters on assessing and improving programme competences and developing maturity discrete chapters relate programme management to the international baselines and standards collectively the gower handbook of programme management is most comprehensive guide to the subject that you can buy

this book presents 120 real life case studies collected from indigenous as well as multinational organizations operating in india in 18 different industry sectors these cases provide the readers with insights into the good the bad and the ugly facets of the corporate lives of new gen professionals in the last two decades based on real life work experiences of corporate executives in india these cases address a variety of the multitude of issues being faced by the professionals and their behavioural implications at the workplace there is considerable diversity in the themes and issues discussed in these cases to facilitate the teaching and learning the book provides an introductory part comprising a brief exposition of ob as a discipline the second part of the book contains the abstracts of all cases along with questions for discussion thematically designed and comprehensive in coverage the book covers almost all issues in the subject areas of ob and hrm the book is divided under ten sub themes namely personality perception and communication attitudes and values leadership power and politics jobs and roles conflict and collaboration group and team dynamics culture and diversity and managing change each case is also identified under subthemes for the case facilitator to discuss when suitable this book will be useful to the students academics management researchers industry professionals from the field of general management organisational behaviour and human resource management and commerce it would also be a useful resource for professionals and the general reader as it provides an opportunity to learn through surrogate experience

despite much learning and research over many decades large ict software projects have continued to experience poor outcomes or fallen short of original expectations some spectacularly so this is the case in the australian and new zealand public sectors even though these projects operate within historically developed institutional frameworks that provide the rules guidelines and controls and aim to consistently improve outcomes something is amiss in adapting for inertia grant douglas questions the effectiveness of these institutional frameworks in governing large ict software projects in the australian and new zealand public sectors he also gauges the perspectives of a large number of actors in projects in both sectors and examines two case studies in detail the main narrative to emerge is that the institutional frameworks are in a state of inertia they are failing to adapt owing to various institutional factors all of which have public policy implications sadly douglas finds this inertia is likely to continue if there is difficulty in changing the capacity to govern he proposes policymakers should look to change the nature of what is to be governed

events management second edition provides an introduction to the principles and practices associated with planning managing and staging events the book introduces the key concepts of event planning and management discusses the key components for staging an event and covers the whole process from creation to evaluation examines the events industry within its broader business context provides an effective guide for producers of events contains

learning objectives and review questions to consolidate learning now in its second edition this successful text has been fully revised and updated to include new case studies and chapters on event tourism project management of events strategic marketing and issues and trends it is full of real life case studies which illustrate key concepts and place theory in a practical context examples include the edinburgh international festival glastonbury festival vodafone ball mtv awards notting hill carnival t in the park and the daily mail ideal home show events management is the must have introductory text providing a complete a z of the principles and practices associated with planning managing and staging events events management is supported by a website em worldofevents net which includes updates downloadable figures form the book and an online history of events together with links to websites and other resources for both students and lecturers

it is the year 2123 and the usa and her allies are celebrating the end of world war three they won with the aid of the new star wars system and now bill buchanan the president of the usa will make a world changing speech to the united nations he will declare himself the first president of the earth and reveal his plan for the future along with his vice president and some of the richest people on earth he intends to reverse climate change and save the ailing planet the plan involves drastic action the younger generation however quickly accept the situation and there is a huge movement to make the plan work sovereign countries will cease to exist and the 12 5 billion people on earth are to be relocated to the desert regions and fertile land will be reclaimed to plant trillions of trees

the book is primarily intended for use as a college textbook for teaching project management at the advanced undergraduate or master s level the text is appropriate for classes on the management of service product engineering projects as well as information systems is thus we have included some coverage of material concerning information systems and how is projects differ from and are similar to regular business projects the authors draw upon their personal experiences working with project managers and on the experience of friends and colleagues who have spent much of their working lives serving as project managers in the real world thus in contrast to the books that are about project management this book teaches students how to do project management project management a managerial approach 5e addresses project management from a management perspective rather than a cookbook special area treatise or collection of loosely associated articles it addresses the basic nature of managing all types of projects public business engineering information systems and so on as well as specific techniques and insights required to carry out this unique way of getting things done it deals with the problems of selecting projects initiating them and operating and controlling them it discusses the demands made on the project manager and the nature of the manager s interaction with the rest of the parent organization it covers the difficult problems associated with conducting a project using people and organizations that represent different cultures and may be separated by considerable distances it even covers the issues arising when the decision is made to terminate a project

this book sheds light on the increasing pressure on organizations for compliance to standards in the audit society it explores the conditions and contradictions under which deviance in organizations occurs and applies structuration theory to cover aspects of both structure and agency to explain organisational deviance from standards

the 1950s was a time of optimism america had recently celebrated victory in world war ii industry was booming and the humankind was looking ever forward into the future and into space it was during this time of prosperity and hope that jack goodman came of age as a young man jack is a model of success with a college education a beautiful wife and daughter a home of his own and a prestigious and fulfilling engineering career from all outward appearances his life seems perfect an object of envy among saint louis s up and coming but inside of it are the seeds of disappointment pain greed and betrayal and even honorable adherence to a life of doing what is right and good can t protect jack from the dark side of the american dream calling into question everything he once held to be true about his world and his destiny
