a winner of the nobel peace prize and bestselling author of banker to the poor

offers his vision of an emerging new economic system that can save humankind and the planet muhammad yunus who created microcredit invented social business and earned a nobel peace prize for his work in alleviating poverty is one of today s most trenchant social critics now he declares it s time to admit that the capitalist engine is broken that in its current form it inevitably leads to rampant inequality massive unemployment and environmental destruction we need a new economic system that unleashes altruism as a creative force just as powerful as self interest is this a pipe dream not at all in the last decade thousands of people and organizations have already embraced yunus s vision of a new form of capitalism launching innovative social businesses designed to serve human needs rather than accumulate wealth they are bringing solar energy to millions of homes in bangladesh turning thousands of unemployed young people into entrepreneurs through equity investments financing female owned businesses in cities across the united states bringing mobility shelter and other services to the rural poor in france and creating a global support network to help young entrepreneurs launch their start ups in a world of three zeros yunus describes the new civilization emerging from the economic experiments his work has helped to inspire he explains how global companies like mccain renault essilor and danone got involved with this new economic model through their own social action groups describes the ingenious new financial tools now funding social businesses and sketches the legal and regulatory changes needed to jumpstart the next wave of socially driven innovations and he invites young people business and political leaders and ordinary citizens to join the movement and help create the better world we all dream of

american criminal justice is a dysfunctional mess cops are too violent the punishments are too punitive and the so called land of the free imprisons more people than any other country in the world understanding why means focusing on color not only on black or white which already has been studied extensively but also on green the problem is that nearly everyone involved in criminal justice including district attorneys elected judges the police voters and politicians faces bad incentives local towns often would rather send people to prison on someone else s dime than pay for more effective policing themselves local police forces can enrich themselves by turning into warrior cops who steal from innocent civilians voters have very little incentive to understand the basic facts about crime or how to fix it and vote accordingly and politicians have every incentive to cater to voters worst biases injustice for all systematically diagnoses why and where american criminal justice goes wrong and offers functional proposals for reform by changing who pays for what how people are appointed how people are punished and which things are criminalized we can make the us a country which guarantees justice for all key features shows how bad incentives not bad apples

cause the dysfunction in american criminal justice focuses not only on overincarceration but on overcriminalization and other failures of the criminal justice system provides a philosophical and practical defense of reducing the scope of what s considered criminal activity crosses ideological lines highlighting both the weaknesses and strengths of liberal conservative and libertarian agendas fully integrates tools from philosophy and social science making this stand out from the many philosophy books on punishment on the one hand and the solely empirical studies from sociology and criminal science on the other avoids disciplinary jargon broadening the book s suitability for students and researchers in many different fields and for an interested general readership offers plausible reforms that realign specific incentives with the public good

state by state listings and explanations of municipal landscape ordinances in u s landscape ordinances buck abbey furnishes landscape architects planners land use attorneys and students with a much needed resource this state by state presentation demystifies the complex planning laws and ordinances that determine landscape design parameters for more than 300 american cities the author highlights sections of each ordinance that pertain to landscape architecture boils the legalese down to plain english explains the law s main purpose and regulatory function and spells out the practical implications from a design perspective with the help of more than fifty diagrams and drawings that clarify complex spatial concepts u s landscape ordinances reviews the entire spectrum of green laws currently on the books including ordinances that cover parking lots and vehicular use areas landscape buffers and screens street tree plantings open space design irrigation land clearing and building sites the product of ten years of painstaking research and analysis u s landscape ordinances is a unique and invaluable tool for professionals in landscape design and municipal planning it also offers a deep reservoir of information for students municipal legislators community activists and anyone interested in understanding or developing a community s landscape ordinances
