this book claims that paradise lost contains all the traits of the great epics as well as the predominant characteristics of early modern novels and that every history of the novel should acknowledge milton s unintentional contribution to the development of the genre

milton's satan is presented as a novelistic character par excellence preceding memorable literary characters of novelistic provenance like dostoyevsky's raskolnikov shelly's monster or kafka's beetle in addition this book proves that all the elements of modernity like capitalism science all pervasive doubt the absence of unquestionable ideals radical individualism and the insatiable desire for self realization and incessant advancement are inherent to both paradise lost and satan's character just like a fully developed novelistic character and unlike any epic character in history satan constantly surprises us by failing exceeding or simply contradicting our expectations as such the book demonstrates that satan shares more common points with the likes of tom jones moll flanders or lovelace than with the traditional epic heroes like achilles or aeneas proving that the novel as a genre owes an immense debt to milton's grand epic and that satan may be perceived as a precursor of the great novelistic characters

in a companion to jesuit mysticism robert a maryks provides thirteen unique essays discussing the jesuit mystical tradition a somewhat neglected aspect of jesuit historiography that stretches as far back as the order s co founder ignatius of loyola his spiritual visions at manresa and ultimately the mystical perspective contained in his spiritual exercises the volume s contributions on the most significant representatives of the jesuit mystical tradition from baltasar Álvarez to louis lallemant to hugo makibi enomiya lassalle aim to fill this lacuna in jesuit historiography although intended primarily as a handbook for scholars seeking to further their own research in this area the volume will undoubtedly be of interest to scholars and students of jesuit studies more broadly

recently angels have made a remarkable comeback in the popular imagination their real heyday however was the middle ages from the great shrines dedicated to michael the archangel at mont st michel and monte garano to the elaborate metaphysical speculations of the great thirteenth century scholastics angels dominated the physical temporal and intellectual landscape of the medieval west this book offers a full scale study of angels and angelology in the middle ages seeking to discover how and why angels became so important in medieval society david keck considers a wide range of fascinating questions such as why do angels appear on baptismal fonts how and why did angels become normative for certain members of the church how did they become a required course of study did popular beliefs about angels diverge from the angelologies of the theologians why

did some heretics claim to derive their authority from heavenly spirits keck spreads his net wide in the attempt to catch traces of angels and angelic beliefs in as many portions of the medieval world as possible metaphysics and mystery plays prayers and pilgrimages cathars and cathedrals all these and many more disparate sources taken together reveal a society deeply engaged with angels on all its levels and in some unlikely ways
