landmark study on the role of gestures in relation to speech and thought

over the past few years scientists and philosophers have discussed the concept of gesture as promising to overcome hyper intellectualist conceptions of human beings its ascendancy reaffirmed the importance of the pragmatic relational dimension in human experience and cognitive processes many questions arise when we focus on the cognitive role of gestures especially in the new cultural landscape shaped by the digital revolution does the idea of gestures highlight the preeminence of bodily experiences does it lead to the thinning of the distinction between humans and nonhuman animals do gestures help us rethink the allegedly higher human capacities in an anti-reductionist vein do gestures involve reasoning are they purely external actions do they serve to communicate or is all communication a form of gesture what kinds of social relations are involved in the concept of gesture according to a multidisciplinary orientation the book inquires into the possibilities and issues opened up by attending to a philosophy of gestures in philosophy sociology psychology anthropology and communication studies given the current centrality of gestures the general aim of the book is to reconsider the

meaning of gestures and try to answer old and new questions

gestures are now viewed as an integral part of spoken language but little attention has been paid to the recipients cognitive processes of integrating both gesture and speech how do people understand a speaker s gestures when inserted into gaps in the flow of speech what cognitive semiotic mechanisms allow this integration to occur and what linguistic and gestural properties do people draw on when construing multimodal meaning this book offers answers by investigating multimodal utterances in which speech is replaced by gestures through fine grained cognitive linguistic and cognitive semiotic analyses of multimodal utterances combined with naturalistic perception experiments six chapters explore gestures potential to realize grammatical notions of nouns and verbs and to integrate with speech by merging into multimodal syntactic constructions analyses of speech replacing gestures and a range of related phenomena compel us to consider gestures as well as spoken and signed language as manifestations of the same conceptual system an overarching framework is proposed for studying these different modalities together a multimodal cognitive grammar

this book constitutes the thoroughly refereed post-proceedings of the COST Action 2102 international workshop on verbal and nonverbal communication behaviours held in Vietri sul Mare, Italy, in March 2007. The twenty-six revised full papers presented together with one introductory paper comprise carefully reviewed and selected participants' contributions and invited lectures given at the workshop. The papers are organized in topical sections:

gesture or visible bodily action that is seen as intimately involved in the activity of speaking has long fascinated scholars and laymen alike. Written by a leading authority on the subject, this 2004 study provides a comprehensive treatment of gesture and its use in interaction, drawing on the analysis of everyday conversations to demonstrate its varied role in the construction of utterances. Adam Kendon accompanies his analyses with an extended discussion of the history of the study of gesture, a topic not dealt with in any previous publication, as well as exploring the relationship between gesture and sign language and how the use of gesture varies according to cultural and language differences. Set to become the definitive account of the topic, gesture will be invaluable to all those interested in human communication. Its publication marks a major development both in semiotics and in the emerging field of gesture studies.

the book first considers the use of gesture in the drama, then proceeds to develop a theory on the meaning of gesture in the narrative. This theory is then applied to Kleist's *Michael Kohlhaas* and Kafka's *Der Prozess*. Both texts are subjected to a thorough formal analysis which considers the functional meaning of gesture and describes the peculiarities of each author's style. The result of these analyses is compared in the light of previous scholarship and an opinion is offered on the alleged stylistic link between the two authors.
