the change in paradigm in our field is away from the great man or woman theory of leadership and the teacher in his or her own classroom to the development of learning communities which value differences and support critical reflection and encourage members to question challenge and debate teaching and learning issues how to achieve such learning communities is far from clear but we believe the areas of problem based learning pbl and organizational learning ol offer valuable clues the indications are that the successful educational restructuring agenda depends on teams of leaders whole staffs and school personnel working together i e ol linking evidence and practice in genuine

collaboration i e pbl the book is unique in that it is both about and uses these two concepts the book is made up of four sections 1 an introductory rational in which the case for using only quality evidence in school reform efforts is argued results from a quality research project are then presented these results are organised around six questions how is the concept of ol defined in schools teacher voice what leadership practices promote ol in schools teacher voice what are some outcomes of schooling other than academic achievement pupil voice what are the relationships between the non academic and academic outcomes of schooling does school leadership and or organisational learning contribute to student outcomes and what other factors contribute to student outcomes the section concludes with a plea that given the accumulation and consistent quality of the evidence from across systems and countries we no longer need to involve ourselves with just impressions of effective leadership we have a way forward that links leadership to organisational learning and improved student outcomes 2 advice for using the book the reasons for the choice of problem based learning as the vehicle for the professional development materials that form the major part of this book are detailed suggestions are then made for use of the book including a one day and two day workshop and advice on group development and warm up activities for such group development before moving to the problem based learning package in section 3 3 a problem based learning evidence informed professional development package for aspiring and actual school leaders based on real schools and their leaders 4 a challenge the final section provides refined versions of the diagnostic instruments used in the research and challenges readers to use them in their own schools the book concludes with the references used and a list of other readings
